goodVon V TECERThere's a moment in every girl's life when she gets tired of reading of the same paranormal creatures. I've had my share of vampires, werewolves, fairies and angels so I can have appreciation for an author who does something different.I was already a fan of Amanda since the first book but now I'm a convert.Her writing style is

simple, straight to the point and easy to read. I'm not saying she's the best writer but something about her books is just wow. Please goodreads don't disappear my review!

Kurzbeschreibung Aren Tiernal knows that safety is an illusion, that his cruel and powerful brother will never forgive his betrayal. Still, returning to Tyrea to challenge Severn for the throne would be suicide. It's not until Severn himself comes to collect what's owed to him that Aren decides to risk everything in an attempt to bring down the most powerful Sorcerer Tyrea has ever known. The mission seems doomed to fail, but it's Aren's only chance to save himself, his country, and the woman who thawed his heart. Rowan Greenwood has troubles of her own. Though she should be a great Sorceress, years of being closed off from her magic have left her unable to control her incredible power. When a pair of ominous letters arrive from her home country, Rowan has to choose between her new life and a chance at saving her family and just maybe changing an entire country's beliefs about the evils of magic. Torn apart by separate quests, Rowan and Aren will have to discover untapped strengths and confront their darkest fears in order to overthrow a ruler determined to destroy them both. (Mature YA Fantasy)
