a few moments when I shook my head... still this is a wonderful book (I just love Lindsay Buroker 's sense of humour).4 von 4 Kunden fanden die folgende Rezension hilfreich. Torrent - Rust and Relics Von Wolf D.I write this recension in two languages. In English and in my far better German.As the books before I read from this author (All the books and novels of the Emperor Edge series) his new novel was absolutely exciting, suspense packed. I only interrupted to read it while I had to sleep, to work and were busy with other inevitable duties.The author was not mean enough to end with a cliffhanger, but he leaves open more questions than answers and I hope, he will write a sequel, or better a couple of sequels.For this low price - I paid far less than one Euro - it was a present. I would pay far more for it.So I can recommend all people, who like to read SF, Steampunk and Fantasy, to read this book - and the Emperors Edge books.Torrent - after finishing it - I can't tell - was ist a science fiction novel or an urban fantasy`? I am not certain. I hope Lindsay Buroker will illuminate me.----So, nun die deutsche Bewertung.Ich dachte schon, Emperors Edge wre kaum zu toppen - ist es vielleicht auch nicht - aber "Torrent" ist mal mindestens genau so spannend. Ich muss einrumen, ich kenne einen Teil der Gegend in der es spielt, da ich Arizona und New Mexico von meinen Reisen kenne und die Landschaft liebe. Das Buch startet recht sanft, nimmt dann aber sehr schnell Fahrt auf. Eine Gruppe Menschen, eine Archeologin, ein Computerfreak und eine Ex-Tenneisspielerin werden in ein spannendes Abenteuer verstrickt, bei dem nie genau rauskommt, ob es in den Bereich Fantasy oder Magie flit, da alle ungewhlichen Ereignisse - und davon gibt es viele - in beide Bereiche fallen knnten. Ich will nicht zu viel verraten, aber es ist total spannend und ich habe es in jeder freien Minute gelesen und hoffe auf eine Fortsetzung. Dem genialen Schreiber habe ich schon diesbezüglich angeschrieben und ich hoffe, er haut in die Tasten.Der Preis von weniger als 1 Euro war ein reines Geschenk. Ich wrde die Fortsetzungen auch kaufen, wenn der Autor die blichen Bestseller Preise aufruft.Probiert es also aus, holt euch eine Leseprobe.Fnt Sterne sind mehr als gerechtfertigt.Wolf2 von 2 Kunden fanden die folgende Rezension hilfreich. Ganz ok Von TinaIch fand das Buch ganz ok, aber es blieb dann doch hinter meinen Erwartungen zurueck. Die Entwicklung der Geschichte schleppte sich etwas dahin und auch die Entwicklung der Charaktaere hat mich nicht ueberzeugt. Habe mich dabei ertappt, wie ich einige Seiten quer gelesen bzw ueberblaettert habe, weil ich zum Ende kommen wollte.

KurzbeschreibungWhen Delia chose to major in archaeology, she imagined herself as the female Indiana Jones of the Southwest. She didnt imagine herself crawling through abandoned mine shafts, scrounging for rusty pickaxes and gold pans to sell on auction sites, but Indiana Jones didnt have to make student loan payments.Scouring the mountains of Arizona with Simon, her best friend and computer geek extraordinaire, Delia dreams of turning their scavenging enterprise into a legitimate business. More, she longs to earn the respect of peers who shun her for turning into a treasure hunter. What she doesnt dream of is stumbling across a decapitated body in an old mine near Prescott.Something dangerous has come to the mountains, and two Harley-riding strangers are the only ones who seem to have a clue. They speak a language Delia has never heard and carry mysterious artifacts shes never seen. Investigating these strangers might lead her to discoveries that change the face of archaeology forever or it might lead her and her best friend into a deadly monsters lair.KurzbeschreibungWhen Delia chose to major in archaeology, she imagined herself as the female Indiana Jones of the Southwest.
