**Von C.T. Adams, Cathy Clamp : Touch of Madness (The Thrall Series)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Touch of Madness (The Thrall Series):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Exciting follow-upVon Helen HancoxThis book is the follow-up to 'Touch of Evil' by the same authors and it continues the

story of Kate Reilly, her werewolf boyfriend Tom and various other characters. The authors' take on the vampire/werewolf mythology is rather different than the norm with the Thrall being a hive mind with which Kate is linked following the events in the previous book. 'Touch of Madness' starts a month after the end of the previous book and Kate finds herself once again in the thick of a load of trouble. Some eggs have been stored and while Kate and the other Not Prey are in a meeting to discuss further studies the eggs escape. Kate and police detective Brooks do what they must to stop the infestation and find themselves being sued. At the same time Kate is approached by the vampires to find some other eggs that have been stolen, her relationship with Tom looks like it might have problems because he may be needed to sire more werewolves and Kate is sterile, plus her brother, who is in an almost-zombie state, is proving difficult to handle and may lose his place in the care facility; not to mention two evil and insane women are on the run and they both have it in for Kate. There are several threads of plots all overlapping and that's what makes the book interesting. There are also several different 'baddies' who are after Kate or those whom she loves, as well as the confusion over good and bad with regard to the Thrall. Kate considers them evil parasites but she's beginning to discover this may not be entirely correct. The relationship with Tom was well established in the first book and in this book it continues and deepens. Her relationships with other people, such as her brothers Joe and Bryan, come under more scrutiny and we see a lot of heartache amongst them. Kate does come across rather like an early Anita Blake, always in the thick of things, internally conflicted about her actions but brave and almost suicidal at the same time. Fortunately the people around her take care of her and seem amazingly supportive - most of the time. I initially found this book rather difficult to get into, mainly because I hadn't read the previous book in the series. However after the first couple of chapters I found myself drawn into Kate's world and learning about the events that have made her the person she is. There was an awful lot of backstory from the first book and it was doled out in small portions and that meant I didn't always understand everything but I found the book very enjoyable nevertheless and the non-stop action made it an exciting read. The fact that it was written by two people was never apparent as the writing style felt congruent and smooth without the odd jarring notes that twin authorship can sometimes bring. In conclusion, this is an excellent book and very exciting but it is probably worth reading 'Touch of Evil' first so that there is less complicated plot to work out. Fischer It should first be said that this novel is part of a trilogy and is closely connected to part 1, Touch of Evil. It should be read first. Because of her experiences with the vampiric parasites called The Thrall, Kate Reilly is asked to take part in an experiment. But things go wrong in the worst possible way, and Kate has to face several powerful enemies as a result. As if that weren't bad enough, she is blackmailed by the Thrall-queens to try and find a batch of their young who were stolen as a result of the experiment. And while things have been going great with her werewolf-boyfriend Tom, his pack wants to break them up because they want him as a breeder and not with someone like Kate. Will she manage to survive her old and new enemies and save her relationship with Tom? Just like the first part of the trilogy, this is an excellent book with a great plot, excellent world-building, lots of originality and interesting characters. It's one of the best books in the paranormal / dark urban romance genre and definitely worth buying. 0 von 2 Kunden fanden die folgende Rezension hilfreich. Madness! Von Amber I like the whole 'Thrall' idea but find this series to be a little over the top at times. Kate Reilly, while being very strong and clever, has a self-destructive nature that can be annoying at times. In this second part in the 'The Thrall' we see Kate spending more time in hospital than a lot of doctors do. There is a lot of action and a good storyline but as I said...it seems at times a little OTT. I will be reading more in this series if anymore are written. I hope that Kate will calm a little and maybe get into some trouble (otherwise there would be no point of another book) but not get into too much trouble that she does herself some serious damage.

**Kurzbeschreibung** Kate Reilly is having a bad month She's on trial for murders she didn't commit. She's next on the list of a serial killer. The parasitic vampires known as the Thrall want her to investigate the murder of their young, and will use any means necessary to force her to bow to their demands. And--possibly worst of all--her boyfriend Tom's werewolf pack is trying to break them up so Tom can mate with a werewolf to ensure the survival of his pack. Now Kate must fight for Tom--and fight for her very survival in this brand new paranormal romance from the unbeatable, bestselling team of C. T. Adams and Cathy Clamp. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied. From Booklist Adams and Clamp continue the paranormal romance series that began with Touch of Evil (2006). In this installment, Kate Reilly is on trial following a debacle involving a hospital study. Her brother, Bryan, is also in trouble. The leader of the werewolf pack wants Tom to reproduce, but Kate is sterile, and she keeps having dreams in which other Not Prey turn up dead. The great appeal of this series is that Clamp and Adams create a fully imagined world and bring multiple, disparate plots together to satisfying effect. Tixier Herald, Diana Copyright American Library Association. All rights reserved Pressestimmen "Unveiling a new paranormal series, the brilliant team of Adams and Clamp craft an exceedingly intriguing heroine trying to survive a dangerous and complex world. Told in first person, the resilient Kate's struggles and choices are both vivid and

terrifying. This is an unbeatably good paranormal!"--"Romantic Times BookClub Magazine," 4-1/2 stars, TOP PICK!  
on "Touch of Evil" "Adams and Clamp are adept at incorporating riveting plot twists into this fully imagined world,  
and they don't stint on the romance."--"Booklist" starred review on "Touch of Evil" ""Touch of Evil "receives "The  
Road to Romance" er's Choice Award for all the above and the great writing of the author duo, C.T. Adams Cathy  
Clamp. This book has it all and more. Readers don't want to miss this perfect example of fantastically vivid  
paranormal fiction."--"The Road to Romance "on" Touch of Evil"
