Von C. J. Cherryh : Tracker (Foreigner series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Tracker (Foreigner series):

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. A great startVon swanprideI admit, my expectations were pretty low. Experience shows that especially the first book of a new three-part-arc contains of one third exposition, one third set-up for the upcoming arc and only one third plot. And in the beginning it looked like I was correct. But in the middle there is a sudden, unexpected shift and wow, did the pacing pick up. I can even forgive that the idea with Irene's skin colour is obviously a new one. Even the slow start is

not reason enough to vote that one down. There was some really smart writing and I can't wait what will happen next.0 von 0 Kunden fanden die folgende Rezension hilfreich. Hugely entertaining (if somewhat predictable)Von Monika SimonTracker is the sixteenth volume of the on-going Foreigner saga about the adventures of Bren Cameron and, as usual, Bren has to step in to prevent disaster in yet another crisis. Just to avoid things getting boring the Kyo, the alien race they encountered in previous books, decide to show up at this point, making the situation both more complicated and more urgent.As with some of the previous volumes, I am in two minds about this book. I find them somewhat predictable, but at the same time I very much enjoy reading them. They are entertaining, but though each new crisis is different, the overall plot is very much the same. I know that there will be no unpleasant surprises, which is comforting but leaves little room for suspense. I have some reservations against apparently never-ending sagas, but by now the characters of the books have become familiar like old friends and I want to read more about them. Altogether, I enjoyed reading this book and really look forward to reading the next book (and the one after that).1 von 1 Kunden fanden die folgende Rezension hilfreich. Temporeicher AuftacktVon MiriTemporeicher Auftackt,Die Story nimmt ein schnelleres Tempo als gewohnt, ansonsten hervorragend wie immer. Ich warte ungeduldig auf die Vortsetzung!

KurzbeschreibungThe sixteenth novel in CherryhsForeignerspace opera series, a groundbreakingtale of first contact and its consequencesIts been a year of upheaval, since Bren Camerons return from spacea year when he and the aiji-dowager, one of his most powerful atevi allies, returned home from their two-year interstellar mission to find the government overthrown and their world in chaos. Now, at last, things are calming down; the Assassins Guild is functioning again, working out its internal difficulties, and Bren is settling back into his routine: not as Lord of the Heavens; notto his regretas Lord of Najida peninsula, where his leisure estate is located; but as paidhi-aiji, an official in the atevi court. His current ambition is to keep himself and his bodyguard out of harms way, and to shepherd the aiji-dowagers daring new trade agreement through the appropriate legislative committees. Combined with Tabini-aijis recent appointment of his young son Cajeyri as his official heir, Brens workload is challenging, but at least things on the atevi world seem to be on the right track. Something is coming, however, quietly, stealthily, just the first ominous twinkle of a new star in the heavens.From the Hardcover edition.PressestimmenPraise for theForeignersseries:C.J. Cherryh's splendidForeignersseries remainsat the top of my must-keep-up reading listafter two decades." Locus"This is the kind of anthropological SF of which[Cherryh] is an acknowledged master." Booklist"A seriously probing, thoughtful, intelligent piece of work, with more insight in half a dozen pages than most authors manage in half a thousand." Kirkus sOne of the best long-running SF series in existence...Cherryhremains one of the most talented writers in the field." Publishers WeeklyThis isone of the best science fiction series currently running.by this point, the series has turned into a complicated set of thrillers involving political and factional turmoil, as well as a close and detailed examination of the troubled interactions between human and alien cultures. Strange Horizons"My favorite science fiction series is C. J. Cherryh'sForeigner Universe.Cherryh deftly balances alien psychology and human vanitiesin a character caught between being human and part of an alien race." Denver PostCherryh plays her strongest suit in this exploration of human/alien contact, producingan incisive study-in-contrastof what it means to be human in a world where trust is nonexistent. Library Journal"A large new novel from C.J. Cherryh is always welcome. When it marks her return to the anthropological SF in which she has made such a name, it is a double pleasure. The ensuing story is not short on action, but stronger (like much of Cherryh's work) on world-building, exotic aliens, and characterization.Well up to Cherryh's usual high standard." The ChicagoSun-Times[Cherryh] avoids any kind of slump with aquick-moving and immediately engaging plotline, and by balancing satisfying resolutions with plenty of promises and ominous portents that are sure to keep readers appetites whetted. RT sThese are thinking mans reads withrich characters and worlds and fascinating interactionsthat stretch out over many generations. SFFWorldCherryh's forte is herhandling of cross-cultural conflicts, which she does by tying her narrative to those things her point-of-view character would know, think, and feel.SFRevu"TheForeignersseries is aboutas good as it gets...so finely and densely wrought that you may end up dreaming of sable-skinned giants with gold eyes, and the silver spun delicacy of interstellar politics."
