greatly enjoying these books. This one, the second volume, has an endearingly inept and almost autistic but super-intelligent hero. There were many places where I had to smile at his fumbling attempts to win the girl. Calendula, his former student and current trainee, gives as good as she gets and one can believe in their happily ever after. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Wieder ein super Buch Von Amy Ich dachte ja, dieser Thatcher hat nen Knall, hat er auch, aber einen netten, sympatischen. Sehr unterhaltsam, romantisch und mit sehr witzigen Dialogen und gut ausgearbeiteten Charakteren. Ich empfehle auch die Bcher, die die Autorin unter dem Namen Lindsay Buroker geschrieben hat. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Action packed romance Von Book wyrmA scifi story about a fairly autistic mercenary and a sarcastic new recruit. Lionsdrake makes the characters lovable and understandable despite or maybe because of their quirks. Great exciting adventure on a space station and a planet torn by civil war.

Kurzbeschreibung After ten years of flying freighter ships from planet to planet, Val Calendula never thought she would apply for a job as a combat pilot in a mercenary outfit. But her brother has gotten himself into financial trouble, and hes heading to a mining prison if Val cant pay off his debts. Mercenaries dont always live long... but they make good money while theyre alive. A few combat bonuses, and Val could earn what she needs. The problem? She might have graduated from the military flight academy, but she hasnt fought anything more dangerous than dust bunnies on the bridge lately. To make matters worse, the man in charge of hiring pilots was her instructor back at the academy. Commander Thatcher was almost as brilliant as he was arrogant and condescending, and he never seemed to think Val was smart enough to be there. She has no idea if shell be able to convince him otherwise now... or if shell be able to stand working with him. When Gregor Thatcher left the military, he never expected to run into any of his former acquaintances, much less the one he admired and mooned over during his two years teaching at the academy. Back then, he never told Val Calendula he cared for her, partially because officers werent supposed to have relations with cadets, but mostly because he didnt know how to speak of his feelings. He might not have any trouble grasping navigational mathematics and astrodynamics, but people are more problematic. Gregor is elated that Val has entered his life again, but hes fairly certain she hates him. Worse, hes responsible for deciding whether shes qualified to be a combat pilot. How can he judge fairly when his tongue tangles and idiotic words come out of his mouth whenever shes around? When the captain sends Val and Gregor on a mission to pick up a military advisor and deliver him to a planet at war, Val hopes shell have an opportunity to prove herself capable of the piloting position. Gregor hopes hell have the opportunity to improve Vals opinion of him. But when the military advisor goes missing, and theyre forced to divert to a dangerous moon base, the mission turns into a fight for survival. Val may learn too late that theres more to Gregor than that aloof exterior and that inside is a man she could love. Trial and Temptation is a full-length science fiction romance novel of 73,000 words. It is part of the Mandrake Company series and is recommended for readers who enjoy space-based adventure (such as Firefly) and steamy love stories (in the style of Linnea Sinclair).
