Noch 6 Monate bis Oktober...Von KomikerUnd dann kommt Nummer 3!Sehr gelungener Teil zwei, interessant fand ich, wie die Aliens sich die Rollen teilen, einzige leichte Enttuschung (aber nicht genug, um ein Stern wegzunehmen)... ich

habe sehr schnell erraten, wer der Bsewicht war...Sehr zu empfehlen.

Kurzbeschreibung Sequel to national bestseller, Nebula Award finalist, and Compton Crook Award winner Fire with Fire. Science fiction adventure on a grand scale. When reluctant interstellar diplomat and intelligence operative Caine Riordan returns from humanity's first encounter with alien races, sudden war clouds burst. With Earth's fleet shattered by a sneak attack and its survivors fighting for their lives, Caine must rely upon both his first contact and weaponry skills to contend with the non-humanoid enemy. And when the technologically-superior attackers sweep aside the solar systems last defenses, and traitorous corporations invite the invaders to land security forces, humanity fights back with its best weapons: cunning, inventiveness, and guts. But as Earth hurtles towards a final trial by fire that is certain to scar its collective memory, Caine discovers that there may also be large and disturbing gaps in that memory. Clues point to a much earlier inter-species apocalypse, buried in humanity's own prehistory. Which raises a terrifying possibility: what if the aliens' invasion of Earth is not one of conquest, but preemption? And what if their harrowing memories of a long-past cataclysmic war makes them willing to do anything to keep it from reigniting? Even if that means exterminating the human race. At the publisher's request, this title is sold without DRM (Digital Rights Management). About Compton Crook award winner for best first novel, Fire with Fire: Chuck Gannon is one of those marvelous find someone as comfortable with characters as he is with technology, and equally adept at providing those characters with problems to solve. Imaginative, fun, and not afraid to step on the occasional toe or gore the occasional sacred cow, his stories do not disappoint. David Weber "If we meet strong aliens out there, will we suffer the fate of the Aztecs and Incas, or find the agility to survive? Gannon fizzles with ideas about the dangerous politics of first contact. David Brin "The plot is intriguing and then some. Well-developed and self-consistent; intelligent readers are going to like it." Jerry Pournelle "[T]he intersecting plot threads, action and well-conceived science kept those pages turning." SF Crowsnest About Starfire series hit, Extremis, coauthored by Charles E. Gannon: Vivid. . . Battle sequences mingle with thought-provoking exegesis . . . Publishers Weekly "Its a grand, fun series of battles and campaigns, worthy of anything Dale Brown or Larry Bond ever wrote." Analog About Charles E.
