Von Joyce Lamb : True Shot (Berkley Sensation) before purchasing it in order to gage whether or not it would be worth my time, and all praised True Shot (Berkley Sensation):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. True Series, Book Three.Von Detra FitchMackenzie "Mac" Hunter is the editor for a newspaper in Lake Avalon, Florida.

When his depression begins to make him drink too often, the Trudeau sisters, Charlie and Alex, convince him to spend a week in their remote family cabin. Mac walks in to discover a young woman unconscious on the floor with a gunshot wound through her shoulder. Since a storm has washed out the roads, it is up to Mac to care for the mysterious lady. N3 stands for National Neural Network. It is a secret division of the FBI. Each agent has some form of psychic ability. N3 has been Samantha "Sam" Trudeau's family for almost fifteen years. With skin-on-skin contact, Sam is able to mine the memories and experiences of her target. When Zoe, a fellow N3 operative, approaches her with a wild story about their boss, Flinn Ford, impregnating her to create some kind of super psychic spy, Sam's world tilts. Before Zoe's words can fully sink in, she is killed. Sam manages to eliminate the assassin, but is now on the run with a bullet hole through her shoulder. Sam wakes in a cabin to find Mac, a civilian, tending her wound. Before Sam can safely get rid of the man, Flinn is there. Sam and Mac are now fleeing for their lives, trying to stay one step ahead of Flinn and other agents. Their biggest problem is that a drug has been released into Sam's system that has temporarily wiped her memories. As they scramble to make sense out of what is going on, Sam and Mac begin to act upon the passion that has been sizzling between them. Yet in the end, Sam knows that she will eventually have to find a way to leave Mac safely behind, because staying with her would get him killed for sure. **** FOUR STARS! The author saved the best sister's story for last. Yet toward the end, Charlie, Alex, and their men enter for a cameo or two. There is one child that I would dearly have loved to see grow up. (I refuse to give away his name. No spoilers.) Perhaps someday he will have his own story told. I would not mind meeting Sloan again either. This story stands alone. You do not have to read other books of the series to fully enjoy this one; however, those stories are just as terrific as Sam's. Action, suspense, romance, and paranormal conspiracy blend smoothly together to give readers a heart pounding ride. Awesome! ***Reviewed by Detra Fitch of Huntress Reviews.

Kurzbeschreibung Special FBI operative Samantha Trudeau's unique psychic abilities help her catch the most elusive criminals. They also put her in the path of a sadistic adversary when she discovers she's actually working for a rogue cell-and into the confidence of a handsome journalist with his own potentially dangerous secrets. Pressestimmen "Super-spy Samantha Trudeau is on the run from the FBI. With law enforcement decidedly not on her side, she has no choice but to rely on sexy but otherwise ordinary civilian Mac Hunter to help her stay alive. It's a bit of a challenge, since she can't even convince him that she can read minds. Mac thinks Sam should seek refuge with her sisters, even though they can't possibly protect her from the armed thugs that Sam's ex-boss keeps sending after her. Sam is a Wonder Woman who still needs help; Mac's stubbornness becomes endearing in the light of his steadfast belief that family ties trump all troubles. The love scenes are tender even as the external pressures ratchet up. First-time readers will love the unusual treatment of a superpowered heroine, while fans of True Colors and True Vision will find this a very satisfying conclusion to the Trudeau saga." --Publishers Weekly (starred review) Kurzbeschreibung Special FBI operative Samantha Trudeau's unique psychic abilities help her catch the most elusive criminals.
