Trust in Love....Von MagritteTrust in advertising is a nice love story, nothing deep, but a really nice.Lexi has spent the last years taking care of her sick father after her mother's death. Now she is alone and has to choose what to do with her life. Her best friend encourages her to try her dream, working in advertising. Unexpectedly she gets a job in a big firm.

There she is being remarked and fast gets the job of personal assistant to Vincent, the creative director. Now there is the problem: Lexi had a huge crush on Vincent when they were together at high school, but he does not even remember her, but she definitely impresses him. But Vincent has been betrayed by women, so trust does not come easily and trusting love comes even less easily and his relationship to his actual girlfriend, the very superficial unloved Jade is very safe for him. Which is stronger the temptation of love or the safe haven of friendship? Their story is really nice, all characters are so nicely described, and their characterisation is outstanding. Hope, Sean and Vincent's mother are great as well. I really enjoyed this book. It is so full of small details, very fun and realistic. I am quiet curious about other books of Victoria Michaels... Let's see which one I'll try. So I hope you will enjoy this book as well. MBTM0 von 0 Kunden fanden die folgende Rezension hilfreich. Toll!!! Von Franziska Fritz Das Buch ist genial. Es ist schon das zweite Buch, dass ich von Victoria Michaels lese und habe mich dazu entschieden, mir auch das Dritte, welches hier angeboten wird, anzueignen. Die Personen sind authentisch ausgearbeitet; man kann sich sehr gut in sie hineinversetzen - also absolut lesenswert!!

**Kurzbeschreibung** Lexi White finds herself at a crossroads. After putting everything on hold to care for her ailing father, it's finally time for her to start living her life again. An exciting new job holds the promise of a fresh start, until she comes face to face with someone from her past who has always stopped her dead in her tracks, and who evidently still has the power to make her forget her own name. This time around, Lexi is a grown woman who refuses to back away from her dreams, even if it requires working with her old high school crush. Side by side. Every day. Will he end up being her downfall or exactly what she needs? Vincent doesn't even remember Lexi from high school, but he begins to take notice when the fiery young woman is hired as his new assistant. Quickly, Lexi turns his world upside down and becomes an invaluable addition not only to his team, but to his life. Having learned a few hard lessons about trust in the past, Vincent is reluctant to let down his guard, especially when it appears that someone is out to sabotage his family's advertising agency. Professionally, they are dynamite together, but when sparks fly between them personally, will Vincent let lies and jealousy ruin everything between them, or will he finally learn not only how to love, but ultimately trust...in advertising? Victoria Michaels once again delivers a can't-put-it-down novel loaded with engaging characters, cheeky dialogue, and powerful emotions. Trust in Advertising is a cleverly woven tale about two people getting to know each other and ultimately themselves.
