Big Changes in a Complex StoryVon KundenrezensionenThe end of the last Typhon-Pact-volume saw DS9 in the process of destruction and Cpt. Sisko looking on the destruction of Kasidy Yates' freighter on which she and their daughter Rebecca were supposed to be.And that's directly where this volume begins. While Sisko becomes useless for further action the fight around DS9 and Bajor goes on with the Typhon-Pact-ships being finally annihilated. Together with DS9 and the protection the station has offered Bajor and the wormhole. And all hopes the president of the Federation had to forge a new alliance with the Romulan Praetor, because the Romulan ship taking part in the fight has been part of a joined exploration-mission with the ENTERPRISE before.A cloak-and-dagger-game starts with the intelligence-services of all nations working against each other and their diplomats trying to build or mend fences at the same time. Even the Domiona gets drawn into the political fracas and at the end the world of the ST-universe will be well and truly changed.A lot of old acquaintances we meet here and some long story-lines find their ends here while new ones get opened up. Very good read together with its predecessor.1 von 1 Kunden fanden die folgende Rezension hilfreich. great political story, flawed by flat Sisko Co psychologyVon Customera great story. Just all the private stuff around Benjamin Sisko is terrible boring and does not add anything to the story. Additionally there is too much other sentimental nonsense around other people. Some readers might like all that flat psycho and social topics around Deep Space 9 people, others might dislike it as I do. That topics fill 1/3 of a fascinating political story around President Barco and her Romulan counterpart. It is a pity that they come by 1/3 too short. I would recommend authors not to play psychologists. All together a very good story if you skip the useless psycho nonsense.0 von 0 Kunden fanden die folgende Rezension hilfreich. Politische Intrigen ganz gut beschrieben, ber Stellen jedoch sehr lang geratenVon HemeranerWir erinnern uns an Heimsuchung: Auf DS9 hatte man Bomben gelegt. Diese sollten eigentlich zur Ablenkung dienen, aber eine Detonation lie den Kern nicht absprenge, sodass DS9 nun Geschichte ist. Siskos ROBINSON, die DEFIANT und einige Runabouts mssen gleichzeitig DS9 evakuieren und sich ihrer Haut erwehren. Der romulanische Warbird, der vom Dominion Teile fr den Slipstreamantrieb geklaut hat, steht unter schwerem Beschuss, Plan B hat einen Tzenkethi-Kreuzer und Breen-Schlachtschiff auf den Plan gerufen. Der Pakt verliert alle Schiffe, einer der Drahtzieher geht der Sternenflotte ins Netz, die Fderation hat aber keinen Grund zu feiern. Insgesamt sind ber 1000 Verluste zu beklagen. Um Strke zu zeigen hat Prsidentin Bacco jetzt die Durchfahrtspassagen des Paktes fr Null und Nichtig erklrt und hat smtliche Grenzen verstrkt. Prtorin Kamenor ist entsetzt.Die Geschichte wird hier weitererzht. Weitere Spoiler mchte ich nicht geben, nur soviel: Man erfhrt ber mehr ber Vaughns, Tomalaks und Selas weiteren Lebenslauf. Auch Siskos private Probleme werden angesprochen. Die politischen Intrigen der beiden Machtblcke werden virtuos in Szene gesetzt. Allerdings hatte der Roman einige Lngen. U. a. nervten mich sowieso die Szenen, wo es ellenlang um die Prophetenproblematik und deren Verehrung ging, der religise Bezug hatte mich bereits zu Serienzeiten gestrt. Insbesondere die Visionen um Benny und Co. fand ich langweilig.

KurzbeschreibungAfter the disastrous events in the Bajoran system, Captain Benjamin Sisko must confront the consequences of the recent choices he has made in his life. At the same time, the United Federation of Planets and its Khitomer Accords allies have come to the brink of war with the Typhon Pact. While factions within the Pact unsuccessfully used the recent gestures of goodwillthe opening of borders and a joint Federation-Romulan exploratory missionto develop quantum-slipstream drive, they have not given up their goals. Employing a broad range of assets, from Romulus to Cardassia, from Ab-Tzenketh to Bajor, they embark on a dangerous new plan to acquire the technology they need to take control of the Alpha and Beta Quadrants. While UFP President Bacco and Romulan Praetor Kamemor work feverishly to reestablish peace, Captains Sisko, Jean-Luc Picard, and Ro Laren stand on the front lines of the conflict . . . even as a new danger threatens the Bajoran wormhole as it once more becomes a flashpoint of galactic history.KurzbeschreibungAfter the disastrous events in the Bajoran system, Captain Benjamin Sisko must confront the consequences of the recent choices he has made in his life.
