Von Douglas Preston : Tyrannosaur Canyon (Wyman Ford Book 1) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Tyrannosaur Canyon (Wyman Ford Book 1) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen4 von 4 Kunden fanden die folgende Rezension hilfreich.

Entertaining but highly improbable! (3.5 stars) Von Ein Kunde First let me say that I enjoy Preston/Childs books, easy thriller/adventure reads usually within an archeological/scientific context. This being said, Preston is not Crichton! I don't say this to demean the author, in my opinion Crichton is the best at writing a story around science and making it believable. However, Preston is still talented, and usually writes an entertaining story (especially when he is teamed with Childs). Tyrannosaurus Canyon is an extremely improbable story, even for this genre. The plot revolves around Tom Broadbent who is given the Journal of a dying prospector, who was just shot, who he runs into while out riding a horse through a New Mexico Canyon. The old man asks Tom to deliver the Journal to his daughter. The notebook is filled with mysterious numbers, but you realize pretty quickly that they identify the location of a perfectly fossilized Tyrannosaurus Rex. Tom takes on this errand, even though he knows this will make him a target for who ever killed the Prospector-not too smart in my opinion. Tom and his wife are now in big time danger as the killers want the Journal. On top of this, a mysterious Black Ops agent also wants the notebook and has commandeered a special forces unit to help him. I don't want to ruin the surprise, but the agent is trying to hide a secrete discovered by the crew of Apollo 17 crew 30 years ago. Don't expect a lot of character development (which is typical in this genre), but do expect a taught story line, with plenty of action. Just don't expect to be dealing with reality, the holes in the story are big enough to drive a truck through! My biggest problem is why does Tom put himself and his wife in so much danger? Its never really explained. That being said, fans of Preston will surely be happy with this effort, and those looking for a decent-turn-off-your-brain beach read. I was entertained even though the believability factor was very low. Oh yes, if you like thriller/adventures I must recommend the underground hit "Tourist in the Yucatan." Check it out! 2 von 2 Kunden fanden die folgende Rezension hilfreich. "Die Hard" in Buchform mit akademisch gebildeten Helden Von Kundenrezensionen Sehr spannend und mitreierend geschrieben. Nicht an einem Abend beginnen, der einer Nacht vorausgeht, in der man dringend schlafen muss. Das Buch ist extrem schwer aus der Hand zu legen. Anders als Child kann Preston in seinen Soloarbeiten handwerklich wirklich berzeugen, was sowohl die Handlungsbggen, wie auch die Charakterisierungen betrifft. Da stren die kleineren Handlungsunmglichkeiten eigentlich kaum - schlielich machen "Die HArD"-Filme auch Spa ;-) 1 von 1 Kunden fanden die folgende Rezension hilfreich. Sehr spannend! Von Peter Werner Ein wirklich intelligent und auerordentlich spannend geschriebener Thriller, der auch Zge von SF trgt. Abgesehen von wieder einzelnen berzeichnungen, die ja auch dazu gehren, haben die handelnden Personen durchaus glaubhafte Charakter. Der Plot ist wohl organisiert und lebt nicht so sehr von Peripetien als von dem konsequenten Ablauf der einzelnen Handlungstrnge, die sehr fein aufeinander abgestimmt sind. Die Wste Neumexikos gibt dazu einen grandiosen Hintergrund ab. Preston kann auch alleine Romane schreiben, sehr gute sogar. Das macht Geschmack auf mehr.

Kurzbeschreibung A moon rock missing for thirty years . . . Five buckets of blood-soaked sand found in a New Mexico canyon . . . A scientist with ambition enough to kill . . . A monk who will redeem the world . . . A dark agency with a deadly mission . . . The greatest scientific discovery of all time . . . What fire bolt from the galatic dark shattered the Earth eons ago, and now hides in that remote cleft in the southwest United States known as . . . TYRANNOSAUR CANYON? The stunning new masterwork from the acclaimed bestselling author recently hailed by Publishers Weekly as 'better than Crichton'. de About the Author DOUGLAS PRESTON has worked for the American Museum of Natural History as well as with his frequent collaborator, Lincoln Child. He has authored such bestselling thrillers as Brimstone, The Cabinet of Curiosities, and Relic. His latest solo novel is The Codex. .com Exclusive Content Rex-ommended Reading You won't need to do any research before reading Douglas Preston's exciting novel Tyrannosaur Canyon, but it's easy to see he did plenty.
