god of chaos wreaks havoc and moreVon MinaNote: this is the 11th book in the Lupi UF series and the world building alone is so vast that missing the previous installments probably makes it very hard to get into the story. So I think that this is not a good place to start and if you're new to this series, I recommend to start with Tempting Danger.Review:It's been a while since I've read the last Lupi-book, so I was afraid that I would have to struggle to get back into the pretty intricate world. But I needn't have worried: E. Wilks gave the most important points to remember the end of the last installment and I was immediately immersed in the Lupi's world. And this book starts soon after the occurrences of Ritual Magic.The Knife the Sidhe God of Chaos wanted to use to get back a body and enter the human realm was recently destroyed and Lily and Rule are on their Honeymoon in France. And when I realized that they wouldn't play any part in this story, I was really disappointed. I liked Cullen and Cynna, when they were the POVs in their books, and Arjenie and Benedict were ok in their's, but I always preferred Lily and Rule. And I was right that when this time it was Nathan the Hunter, former Hellhound and Wild Sidhe and his partner Kai the mindhealer, who shared the POV, it didn't click the way it did with my preferred couple. I actually don't know why, because they're both likable enough and what I immensely appreciated was the focus on the UF part of the series and no mate-bond and fated lovers stuff, even though Kai and her Hunter undoubtedly love each other.And the plot is fairly good and mind-boggling which is a good thing for me: the Knife was destroyed, but obviously the Chaos God using it, was not. He'd even gotten stronger somehow and he is after Kai and Nathan for reasons not really known to them [and they're revealed late in the story and showed that nearly everyone had it wrong. That was marvelous.]. He tries to snatch them away to his Godhead, a magical place that is his demesne and I was delighted that a fair amount of time the story takes place there. So we have some of the people trying to solve the case in San Diego in the human realm with the Unit 12 and the FBI in tow and some have to deal with the pretty much invincible God in his magical realm. The realm reminded me of the old Star Trek series, when the crew is on a strange and unknown planet and for lack of money, they had the studio equipped very scarcely. But even so, the scenes felt strange and intense. Or maybe it was because of that scarcity. Anyway: it was just the same here. The scenes in the Godhead had an eerie feeling to them, which I liked very much. The foreignness was palpable.The riddle of how to end the God's reign of terror was very well devised and surprisingly solved and this whole case made me nibble cuticles. All of these components made this a really good piece of UF. And I won't hold it against the protagonists that I have a preference for Lily and Rule, since Nathan and Kai are good characters to read about. The only thing I do hold against the story, are the rather long passages of discussing and describing magic. I get it that there are implications for the case, but it was so much page time temporarily that it impeded the story's flow for me. But that doesn't make this less of an impressive example of inventive and well devised UF and I will read on, as long as this series continues.
