KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. A Hot Modern Day Pirate! WOW!Von NinaDont judge a book by its cover. This saying definitely applies to Linda Barlows UNCOVER ME. Who would expect a semi-dark modern day pirate romance when looking at this cover? Me definitely not! Usually one who DOES only read books with an appealing cover, I am really glad to have given Nick

and Ellie a chance. Their story is different refreshing and I loved everything about it. This is the first book by Linda Barlow I've read, but I am sure it won't be my last. Ellie Heath loves Turkey. She is there on a photographing mission when she accidentally stumbles upon an exchange. Of course she takes pictures of it only to realize that she was witnessing a crime. But it's too late. The criminals have already discovered her. Most of the men want her dead, but luckily one of them, Nick, decides to take her hostage on his yacht instead as long as she submits to him completely in order to show her loyalty. But as soon as they arrive on a small and relatively unknown island everything changes. Ellie meets Nick's villain and it turns out that he might be an even greater threat to her life and safety than Nick. In order to survive Ellie needs to face her worst fears, which she does with bravery: She is strong and smart determined to overrule her fear and eventually her captivity. She definitely does not count on being rewarded with love to no one less than her captor. Nick is sexy and possessive and a criminal. But there's so much more to him than the eyes can see. Nick's layers are slowly being peeled back one by one I thought I have finally figured him out, only to be disabused shortly after. He is one amazing mysterious captor! I also need to mention two secondary characters: Metin, Nick's right hand, who is sweet, always there when he is needed, quiet in the background and Nigel, the villain. He is one perfect enemy: Purely evil, Linda definitely made sure for the readers to hate no, to loathe him! I loved the way this story unfolds! I love when a storyline keeps me guessing until the very end these little twists and turns are essential to become a five star read for me. As much as I love hot and passionate sex scenes and this book definitely didn't miss out on that I don't like when the storyline is only dawdling along to fit in bedroom scene after bedroom scene. This book has it all: passion and kink, action and suspense, history and knowledge, captivity and romance. Oh, not forget to mention an unusual setting with archeological digs in the Aegean Sea and modern day pirates who are smuggling artifacts linked with the legend of Troy. I'd really love to have this book turned into a series if not for Nick's and Ellie's story, then for the historical background alone. If you are looking for a refreshing not too dark read with a lot of kink and a suspenseful creative storyline modern day pirates!! this book is for you! Highly recommended!

Kurzbeschreibung Kidnapped! ELLIE: All I did was take a few pictures. I didn't realize I was witnessing a crime. I was hoping for a kick-ass adventure when I set off on my dream vacation. Instead, I've fallen in with a ruthless band of thieves. Kidnapped, bound, and ordered to submit, I'm stuck on a sailboat with the sun-bronzed pirate who caught me photographing his antiquities-smuggling operation. He doesn't want me tagging along any more than I want to be here. But that hasn't stopped him from finding a use for me. NICK: She thinks I'm hard-assed. Dominating. Cruel. But I've got a dirty job to do. It has required months of scheming, a billionaire's yacht, and a priceless cargo of stolen artifacts. I'm not about to be distracted by one inconvenient redhead. Even if she is supremely appealing and oh-so-sweet when I have her on her knees. I can't allow her to mess up my plans. She might not like the way I'm treating her, but she'll have to get used to it. There's no place in my life for softer emotions, and no space in my body for a heart. Kurzbeschreibung Kidnapped! ELLIE: All I did was take a few pictures. I didn't realize I was witnessing a crime.
