Von A. E. Dooland : Under My Skin (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Under My Skin (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Surprisingly goodVon CustomerI might be no good in comments, but I really was surprised about how much I liked it. It's a really good writing and perfect pace(this is really rare) . I have not read such a good LGBT book in a long time. I was really surprised how real the characters were.0 von 0 Kunden fanden die folgende Rezension hilfreich. 11/10

would read again Von Ein Kunde the story's queer, the author's queer - WHATS NOT TO LOVE?? (for real though. the story is honestly the kind of genre i normally avoid but being non binary myself it was an absolute pleasure to read and very relatable! guess i'm warming up to romance after all - as long as it's not the same cishet stuff as always!) MORE POSITIVE REPRESENTATION LIKE THIS !!!! 0 von 0 Kunden fanden die folgende Rezension hilfreich. Eins meiner neuen Lieblings Bücher :) Von Carmen Maas Absolut mitreissend, ich musste das Buch ab und an mal bei Seite legen und mich beruhigen. Ich würde "Under My Skin" jedem empfehlen, es mag vielleicht sogar hier und da einiges offenbaren.

Kurzbeschreibung Min Lee is a workaholic who can't say no. She substitutes sleep with Red Bull and, through a combination of repression and bad habits, has managed to score herself a luxury apartment, a fabulous boyfriend and the approval of her billionaire CEO. Things are looking pretty awesome well, apart from those body image issues that constantly plague her. But Min thinks she's got everything worked out. She's arranged her comfort zone and has zero desire to look outside of it or, so she tells herself. It's not until a troubled schoolgirl tracks her down from the Internet, stalks her to her home and noses her way into life that Min begins to admit that something is wrong in her perfect world. Something that she's never thought about before, and doesn't even want to think about. Something that has the power to ruin all her relationships and dismantle everything in her life she's worked so very hard for. What if she isn't the right word for Min at all?
