**Von Annette Marie : Unleash the Storm (Steel Stone Book 5) (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Unleash the Storm (Steel Stone Book 5) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Just greatVon MonaThis series is one of my favorite. Of all time. I adored every single book in the Steel and Stone series, and this one was truly a worthy finish. If Annette Marie decided to write another ten books about Piper and Ash I would read and adore them all.Buy this series. Its amazingly breathtaking and its only flaw is that its come to an end.0

von 0 Kunden fanden die folgende Rezension hilfreich. 5 stars - like the whole series Von Jan Kritter Such a great conclusion to such a great series. I felt somewhat lost having to emerge from the world that Mrs. Marie created. It has humor, action, and shows the author's splendid creativity, in one word: extraordinary. I am keenly awaiting her next book. 1 von 2 Kunden fanden die folgende Rezension hilfreich. Book 5: Piper steps it up Von Ro El Since this is book 5, I'm going to assume you have read the other books and are debating getting this one. Get it. It's a good read, and I'd say this marked the transition from YAF to Fantasy. I'm looking forward to seeing what the next SteelStone but-not-Ash-and-Piper book is like. On to the book. This was a great conclusion to the story with Ash Piper. We learn even more about Piper's demon ancestry as well as those of the draconians. The pieces slide into place about why (it's really useful that) Piper has this kind of Demon glamor/ancestry. Piper picks up some new skills, including refinement of her ability to negotiate and her compassion. We also learn some cool local mythology about dragons and demons. The tone and (lack of) maturity in the narrator in the previous books disappears as Piper emerges as an adult. I really appreciated this aspect of the story telling; I also think the editing must have been more rigorous, because the only things that felt a little rough to me were the make-outs, which I glossed over. Additionally, something I groused about in a past review as addressed in a discussion in this book. In a previous book, it was established that Ash had slaughtered thousands? millions? in his short life, which I couldn't hit the "believe" button on. There's a discussion in this book about how Underworld Demons (don't really) keep track of time, given that they have 2 suns and a really weird day cycle as a result, and how they don't really have a feel for how it relates to Earth time measurements. I received an ARC of this book in exchange for my honest review.

Kurzbeschreibung Piper thought she could handle the Sahar, the most powerful magical weapon in existence. She thought she could protect her loved ones and stop a war. She thought she could make a difference. She was wrong, and her mistakes were paid for in blood. Leaving her world--and her failures--behind, she retreats to the Underworld with Ash and the other draconians. They forge deep into long abandoned mountains, the first draconians to fly the valleys and passes in centuries--or so they thought. Until now, Ash's mysterious heritage has been nothing but a name, but his presence does not go unnoticed. A new danger stalks him, one that may be even greater than what they escaped. Cut off from the power she'd come to rely on and lost in a world where she doesn't belong, Piper has never felt so hopeless. But she must find her strength, and find it quickly, before she loses Ash to an ancient power he can't fight, before her home is devastated by the daemon war, and before her mind, body, and soul are consumed by the Sahar's insidious magic. The Complete Steel Stone Series: Chase the Dark (Steel Stone #1) Bind the Soul (Steel Stone #2) Yield the Night (Steel Stone #3) Feed the Flames (Steel Stone #3.5) Reap the Shadows (Steel Stone #4) Unleash the Storm (Steel Stone #5) Steel Stone Companion Collection (Steel Stone #6) Kurzbeschreibung Piper thought she could handle the Sahar, the most powerful magical weapon in existence.
