intro for the Unseen Trilogy Von Julie Keil I received a copy of this book in exchange for my honest review. Unseen is a fast paced paranormal urban fantasy that draws you right in and Stephanie Erickson makes it difficult for you to put the book down. Mackenzie or Mac as her friend calls her, is the main protagonist and struggled throughout her entire life because she can hear people's thoughts. Comes in handy on a date to figure out the guys' intentions but makes life really difficult in a large group when you can't even hear what the person next to you is telling you because all the other voices are too loud. One thing that kept me wondering a bit - once Mac starts receive training on her skills, she is exceptionally good. But if she is that good, why did she never figure out these techniques of her own? Ever heard of meditation? Besides that, I found it a great read and it keeps you thinking even once you finished. Highly recommended and I honestly can't wait for the next part.

Kurzbeschreibung She thought she was alone as a mind reader - a freak.
