Puurrfect romanceVon Ein KundeThis is the first EL book I've read and the first book that has actually brought tears

to my eyes. VERY often I wanted to bop Dominic. Most of the time actually. He was stupid, arrogant, stupid, frustrating, stupid, beautiful, sexy, and postively wonderful. Meg's character was the ideal heroine. I think her personality is best shown when Dominic forcefully drags Meg from making the herbal antidote. She fought even though she knew Dominic was physically stronger but that didn't stop her determination. I especially liked the fact that Meg and Dominic were honest with each other. They didn't deceive each other to later have it pop up and become a barrier and one more to overcome. I'm a firm believer in honesty but you have to ask the right questions. Dominic didn't always do that.....The love scenes..... oh my! When Dominic feeds his 'small falcon', that's it! I say no more on the subject except be sure you have air conditioning. The supporting characters were well written too. I'm anxious to see what lies ahead for Duncan and Simon. I want to say Ms. Lowell I was not very pleased with you the other morning when I crawled (reluctantly) to bed at 3:45 AM. I kept telling myself, just one more chapter. Forbidden is on the coffee table. I have alot to do today and it's drawing me like a magnet. Wish me luck! Enjoy. 1 von 1 Kunden fanden die folgende Rezension hilfreich. A great sexy medieval Von Barks Book Nonsense OK, I admit it I've never read an Elizabeth Lowell book until now. Whew, I didn't realize what I was missing! This was one of those rare books that hooked me in wouldn't let me put it down. The book starts out with the pending marriage of Lady Margaret (Meg) returning Crusader Dominic le Sabra. Neither have laid eyes on the other before but are both willing to go along with the prearranged marriage. Meg accepts this as her fate (although she is by no means a wimp!) Dominic wants to claim the castle lands that come along with Meg and begin working on making himself some heirs. Only problem is that Meg happens to be one of the cursed Glendruid (white) witches that for centuries have been unable to conceive male offspring because of a witch's past mistake and the missing Glendruid Wolf. It has been rumored that all Glendruid women are unable to fall in love with a man and vice versa because their powers of perception make them cold and impossible to love. This isn't the only obstacle the couple must face in order to find happiness.... Meg is a charming heroine with a touching love for her people land who will sacrifice everything to save the people who mean so much to her. She's truly an admirable character. Dominic is a wonderful scarred hero who wants nothing more than to settle down and end all of the fighting and bloodshed. Overall this was a very sensuous and tender love story with a wonderful ending. I highly recommend it can't wait to dig into the other books in this trilogy. 1 von 1 Kunden fanden die folgende Rezension hilfreich. A fascinating, attention gripping mystical medieval romance. Von Ein Kunde UNTAMED was the first Elizabeth Lowell book that I read and I found the book simply magical. Dominic's determination to conquer his bride subtly was quixotic. I also admire Meg - her strong character - especially when she was trying to cure Dominic. The Learned could be a fictitious lot but I find them utterly fascinating. I have now in my possession FORBIDDEN and ENCHANTED and I simply love the books. I have read Elizabeth Lowell's contemporary books but I think her medieval series are the best. I really hope that Elizabeth Lowell will tell us the story of Erik and Sven.

Kurzbeschreibung Returning home triumphant from the Crusades, Dominic le Sabre is determined to claim the bride promised to him by the king, but the high-born Celtic beauty is equally determined to resist him. From Publishers Weekly Lowell ( Only His ) opens her medieval trilogy with a fanciful but banal story of Lady Margaret, who marries the Norman knight Dominic le Sabre in the hope that he can protect her Saxon home, Blackthorne Keep, during troubled times. In marrying him, she defies the dying wish of John of Cumbriland, who raised her: that she wed his illegitimate son, Duncan of Maxwell. Meg and Dominic are surrounded by threats: Duncan is poised to disrupt the wedding; Eadith, Meg's attendant, hates the Normans, who killed "her husband, father, brothers, and uncles" (women relatives seem of no concern); Meg's powerful home-brewed medicine has been stolen and her "Glendruid" psychic powers indicate impending danger. Lowell's clumsy tale appears to glorify a system that ranks females as less valuable than males. Dominic seeks a male heir, but Meg's eccentric Glendruid reproductive system may deny him his wish: Glendruid women are not known for producing sons. If Dominic gives Meg "great pleasure" in bed, he will earn himself a daughter, but it takes "great love" to produce a son. Major ad/promo. Copyright 1993 Reed Business Information, Inc. Pressestimmen "A law unto herself in the world of romance."
