Really hot and intense!Von Liv4.5 StarsAs you can imagine, since Charlie is a male escort, there are some steamy scenes going on in this book.I liked both Charlies and Alisons perspectives and their different inner turmoil's about the other person. The story was a bit - for the lack of a better word - crazy sometimes but it kept me on edge a few times

because there was a lot going on and I often had the feeling that this will go up like a bomb. How will they handle all that stuff? Can love conquer all of this? Will their love survive?The Story:Charlie is a male escort and couldn't dream of a better life. Who wouldn't love to get paid for having sex? A lot of men would gladly be him and there doesn't seem to be a woman that doesn't want to have sex with him.He loves his lifestyle though when he meets Allison, he can't seem to get her out of his mind, which really sucks when he is with a client because he shouldn't be distracted by this woman so much and instead focused on his tasks at hand.Allison is head over heels for this guy that she has so much in common with but barely knows. Though she wonders why, even after their third date, he doesn't show any intentions on making a move on her and when her sister comes up with a possible explanation, Allison is worried about what Charlie isn't telling her.What will Charlie do now? Should he quit his job for a woman? But what should he do for a living since he's always been an escort? And how should he tell Allison? She would for sure hate and leave him, wouldn't she?-- An ARC of the series box-set was kindly provided by WordSmith Publicity in exchange for an honest review. --0 von 0 Kunden fanden die folgende Rezension hilfreich. A must for everyone!!Von Sabrina UchenduI won this book due to the 1000 like on Laurens FB page and i have never been happier! Unwritten is the debut novel by Lauren Runow and it's Book 1 of a 2 book series.I started reading it as soon as it hit my kindle and wasn't disappointed. I really, really liked this one. Once I started reading i was captured, I just had to finish it in one sitting and see where the story would lead me. And I have to say, I was very surprised, in a good way, because this was nothing like I expected. I loved the music each time i crossed a sentence with another song i just had to listen to it and reread the lines it was very fascinating and an even better experience. This book is romantic at times, twisted, funny, steamy and a roller coaster ride!!
