can read the last emotional impression on an item. Claude, a old vampire who works for the Agency and with whom she had a relationship, comes to her for help regarding a murder case. but a lot of things are off and Beatrice stays with Claude to discover the background of this case. this brings them more together and their feelings for each other grow again and there are some hot scenes in therethe book is written from Beatrices view and we learn during the story a lot about her history and how she became like she is. unfortunately the same is not true for Claude - there were a lot of questions about him, which were not answered thoroughly enough for me. the same is for their relationship, it was a permanent up-and-down and the last hurdle was in my opinion rather neglected.All in all it was a nice and interesting read and I will definitely read more from this authorI received a copy of this book from the publisher in exchange for an honest review
